

Giving A Ready-Made Slide Deck Presentation

Why do we use pre-made slides?

Because we offer CE credit through AANP we need to ensure that all our presentations meet a certain number objectives and criteria. By offering ready to go slides to speakers we ensure this consistency throughout our 25 chapter programs.

Things to keep in mind:

1. Review the slide deck to make sure all your information on the speaker slide is correct
2. Review each slide and the speaker notes provided in the notes section
3. On case study slides, feel free to swap out example with ones from your own experience
4. On discussion slides, ask the discussion question to the audience and facilitate questions and ideas. If the audience does not participate, give your own ideas as they relate to the topic. If you do not feel comfortable facilitating a discussion, please let the chapter leader know and they can lead the discussion on your behalf.
